

RH Protocol: Cab Card — v0.1.3

- PRIORITY: Driver alive > cargo safe.
- Vet Team: Photo ID, MC/DOT, broker via known-good phone.
- Fictitious Pickup: Code phrase + BOL revision. Gate validates list.
- Double-Brokering: Independent lookup for MC/DOT & phone. Refuse + call LP if mismatch.
- Route Unpredictable: Rotate departure days, vary fuel/rest. Avoid signature junctions.
- Tail-Clear (T+15–30): Gradual speed variance, take exit, loop back. Call dispatch if tail stays.
- Brake Check: Safe gap behind, short pulses, dashcam if possible, report it.
- Comms: No names/cargo/routes on open comms. Use Signal/Wickr; auto-delete.
- Tech: Check ELD/GPS; keep paper atlas/logs. Watch for jamming/drone eyes.
- Emergency: Pre-brief safe lots/exits. If forced stop, choose your ground.
- LEGAL: Follow traffic laws. Historical tactics are context only.
